A IS7121 Cordless Digital Answering System with Audio/Video Doorbell The first of its kind, this two-in-one cordless answering system and video doorbell combines a versatile phone system with a digital camera for convenience and security at home. Like Caller ID for your front porch, this video doorbell allows you to screen visitors before answering the door without worry of being seen. The system automatically snaps a photo and sends it to the handsets when visitors ring the doorbell. You can then stream video, audio or both with just two buttons. Many home monitoring systems are bulky and expensive taking up valuable space throughout your home. But with this system, you get a fully featured cordless phone with top surveillance features and one less thing competing for counter space.

B CL82301/CL82401 Cordless Digital Answering System Experience the best in long-range coverage and clarity, provided by a unique antenna design and advances in noise-filtering technology. Screening calls has never been easier. The handset and base announce the name of the caller, so you don't have to scramble for the handset to see who's calling. No more shouting through the house—this system doubles as a multiple handset walkie-talkie to instantly communicate with any or all of the units in your home. Choose from four preset audio profiles, or use the equalizer to personalize bass, treble, and natural tones for your individual hearing needs. Handset speakerphone allows you to speak and listen without holding the handset. This leaves your hands free to do other things and lets more people in on the conversation. Digital answering system digitally records up to 14 minutes of incoming messages, outgoing announcements and memos. Also allows for instant playback, selective save or delete, and skipping or repeating messages from the handset and base.

C LS6475 Cordless Digital Answering System Enjoy the freedom to have a private, hands-free conversation anywhere in your home or office. The DECT 6.0 cordless headset gives you the same interference free, superior sound and long range you expect from a traditional DECT 6.0 cordless handset. Voice Announce Caller ID audibly announces the name and caller on all of the handsets and the base unit. No need to find the handset to see who is calling. Makes screening calls that much easier. DECT 6.0 technology provides the best sound quality, security and range in cordless phones. Use as a multiple handset walkie-talkie system to instantly communicate with any or all of the handsets within the system—no need to shout throughout the house anymore.
